INSTEP SIZE INFORMATION

- FitFlops only come in whole sizes. If your feet fall somewhere between, opt up a size if you have wide feet or a high instep, and down if you have narrow feet or a low instep. The upper bands on the FitFlop do NOT stretch.
- In the US, most people size down to the nearest whole size
- In the rest of the world, people generally size up.

! IMPORTANT

Please ensure that this page has printed correctly by checking this scale with a ruler. If it matches up, great! If your size is a few millimeters off, read all of point 2 above.

PRINTING OVER TWO A4 PAGES

If you are printing on a A4 printer you will have to print this document over two A4 pages as the print area is larger than the paper. To ensure you have the correct size please use the 30cm red line as a guide when putting the two sheets together. Over lap the prints ensuring the red line is 30cm end to end.
